ICAR at a glance

The Indian Council of Agricultural Research (ICAR) is an autonomous organization under the department of Agricultural Research and Education, Ministry of Agriculture, Government of India. Formerly known as Imperial Council of Agricultural Research, it was established on 16 July, 1929 as a registered society under the Societies Registration Act, 1860 in pursuance of the report of the Royal Commission on Agriculture. The ICAR has its headquarters at New Delhi.

The Council is the apex body for coordinating, guiding and managing research and education in agriculture including horticultural Science, fisheries

Science and animal sciences in the entire country. With 113 ICAR institutes and 74 agricultural universities spread across the country this is one of the largest national agricultural systems in the world.

The ICAR has played a pioneering role in ushering Green Revolution and modernization of agriculture in India through its research, education and extension activities. The challenge before ICAR is to ensure nutritional security to ever-growing population of our country with little potential for increase in cultivable land area, ensuing shortage of water and global warming.
